To Whom It May Concern,

In previous generations, home and family would sufficiently nurture children with the necessary sensitivities to living a life full of spiritual instincts. Unfortunately, today's fast paced and busy lifestyles we lead are not conducive to such, and make family nurturing much more difficult and challenging.

The Ne'ima Penima program fills this void by bringing into the classroom the fundamentals which were previously taught at home. We are all aware that these fundamentals of Yiddishkeit are significant and necessary tools for our children's chinuch. Unfortunately, it is a lost art that we have forgotten how to deliver. Ne'ima Penima is able to give our children what we all know is necessary for them to know, but for which we do not have the necessary tools to give over to them.

Kol Hakovod to Mrs. Chrysler and Ne'ima Penima for reviving this most important element of Yahadus.

Sincerely,

Rabbi Dovid Nojowitz  
National Director
